

Harbour Blanket

Materials

Attic24 Harbour Yarn Pack - 15 × 100g balls of Stylecraft Special DK in the following colours:

A 4mm. hook (or hook size to suit your tension).

Pattern Information

The finished blanket measures approximately 120cm × 175cm (single bed size). Starting chains and stripe numbers for alternative sizes are given at the end of the pattern. The pattern is written in UK crochet terms using the following stitches and abbreviations:

ch	Chain
st(s)	Stitch(es)
sk	Skip
tr	Treble Crochet

Tension/Size

If you crochet loosely, you will need to make sure that your starting chain and first two rows measure roughly 120cm otherwise you will need more than 15 × 100g balls. You can reduce your hook size, or reduce your starting chain to achieve the correct size. Just remember to make your starting chain multiple of 7, plus an extra 3. I would very strongly advise you to work a small tension sample before you start on your blanket. This will help you to familiarise yourself with the pattern repeats as well as giving you a way to test out your gauge and determine which hook size will work best. A tension sample starting with 31-chains should give you a width of 18cm.

Harbour Blanket

TO BEGIN Use **Lapis** for mixed stripe and colourwash.
